Red Deer River MUNICIPAL USERS GROUP

SEPTEMBER 2021 NEWSLETTER – COUNCIL BRIEFING

RDRMUG SEPTEMBER 16TH MEETING – IMPORTANT

The regular RDRMUG meeting will be an important opportunity for members to meet for a number of reasons:

- This will be our first “in-person” meeting since May 2021.
- With the municipal elections coming in October 2021 this will be the last opportunities for some of our elected representatives to meet. Some members have indicated that they have chosen not to run, other members will be assigned to other committees. *Chance to thank members for their contributions to RDRMUG.*
- Members will be given the opportunity to ratify the hiring of a new Executive Director. The “Selection Committee” will put forward a recommendation for the membership to confirm.

Join us for Water Canada's Webinar Series

Coming this September:
Ensuring Reliable Access to Safe Drinking Water

In Canada, the federal and provincial governments play an important role in setting and updating the guidelines and regulations needed to provide reliable access to safe drinking water.

What you'll get from this session: An understanding of what's working, what's not working, and what's needed.

Our expert panelists will include representatives from municipalities, industry associations, and academia.
